

Aashutosh Joshi

Backend Engineer (Java | Spring Boot | REST APIs)

📍 Indore, India 📞 7999608992 ✉ aashutoshjoshi110@gmail.com 🔗 <https://www.linkedin.com/in/aashutosh-joshi-5882301b7>

SUMMARY

4+ years of experience in Java, Spring Boot, and REST API development, focused on building scalable and maintainable backend systems. Hands-on experience with AWS and GCP (Anthos/GKE) and CI/CD automation using Jenkins. Proven experience in Spring Boot upgrades (2.x to 3.4.1), cloud deployments, and improving code quality using SonarQube and Veracode. Strong collaborator across QA, DevOps, database, and frontend teams in Agile environments.

EXPERIENCE

Associate Software Engineer

Feb 2023 — Present

Cognizant Technology Solutions

Developed secure REST APIs end-to-end, improving backend stability and reliability.

Integrated Swagger/OpenAPI documentation and implemented robust field-level validation.

Migrated deployments from GCP Anthos KF → CNTV GCP GKE, improving platform compatibility and performance.

Experienced in modernizing applications, including Spring Boot upgrades (2.x → 3.4.1) and cloud-native deployments

Integrated Vault to securely inject credentials at runtime, eliminating hardcoded secrets.

Improved application quality by fixing SCA/SAST issues and raising SonarQube coverage to 90%+.

Automated deployments across environments by implementing and managing Jenkins CI/CD pipelines.

Collaborated closely with QA, DevOps, Cloud, Database, and frontend teams to ensure successful releases.

Programmer Analyst

Sep 2022 — Feb 2023

Cognizant Technology Solutions

Maintained and enhanced backend services using Java, Spring Boot, JPA, and Hibernate.

Ensured quality and security through SonarQube and Veracode integration.

Assisted in production support activities and participated in deployment readiness checks.

Programmer Analyst Trainee

Sep 2021 — Sep 2022

Cognizant Technology Solutions

Completed a 6-month intensive Java Full Stack training program.

Built RESTful microservices using Spring Boot, JPA, and Hibernate.

Deployed secure backend applications on AWS EC2, RDS, S3, and Elastic Beanstalk.

Gained hands-on experience with Git, Jenkins, Postman, IntelliJ, STS, and SonarQube.

PROJECTS

Disbursement Management Service (DMS)

Technologies Used: Spring Boot, JPA, OAuth2/JWT, Swagger, Oracle DB, MySQL, Jenkins, Git, Postman

- Built a Spring Boot-based backend application for managing disbursement operations using Oracle DB and Apigee security.
- Developed secure REST APIs for disbursement requests, activities, payee search, and data retrieval.
- Implemented OAuth2/JWT authentication, header validation, and Swagger UI documentation.
- Integrated external services and introduced Protect-based security enhancements.
- Built API flows for retrieving data bundles, on-account funds, and pending requests.

EDUCATION

Bachelor of Technology (B.Tech) Rajiv Gandhi Proud yogiki Vishwavidyalaya (RGPV) Score: 69.7%	2017 — 2021 Bhopal
Intermediate (12th) Madhya Pradesh Board Score: 70%	2017

LANGUAGES KNOWN

English Fluent	Hindi Fluent

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) ID:l143-9550	Feb 2022
Cognizant FSE Accreditation Digital Honours	Dec 2022
Google Cloud Digital Leader ID:2ec9814a652d496ca0e4e011fb331218	Dec 2024

SKILLS

Programming Languages & Core Concepts Java (8–21),SQL,Object-Oriented Programming (OOP) Exception Handling,Collections Framework	Backend & Frameworks (Spring) Spring Core, Spring Boot, Spring MVC Spring REST, Spring ORM, Spring JDBC JPA / Hibernate
Databases Oracle, MySQL	API Development & Tools REST API Development, Swagger / OpenAPI, Postman, SoapUI
Databases: MySQL, Oracle	DevOps & Version Control Jenkins, Git
Cloud & Deployment AWS, Google Cloud Platform (GCP), GKE / Anthos	Code Quality & Security Tools SonarQube, Veracode

STRENGTHS

- Java & Spring Boot Backend Development
- REST API Design, Architecture & Integration
- Database-Driven Application Development (Oracle, MySQL)
- Cloud Deployment & Orchestration (AWS, GCP Anthos/GKE)
- Cross-functional Collaboration (QA, DevOps, DB, Frontend)
