PROFESSIONAL EXPERIENCE

BEO Software Pvt. Ltd., Cochin, India

Senior Systems Engineer (L4) | May 2013 – Present

Project: BEO-FREDI (Jan 2024 – Present)

BEO-FREDi is a multi-carrier shipping solution that enables efficient, cost-effective, and secure

shipment processing both domestically and internationally. The platform provides tracking, billing, and reporting, and supports clients with customizations and regular software updates.

Responsibilities:

- Implemented role-based access control for different user types.
- Fixed production bugs and implemented feature enhancements.
- Developed and deployed cloud solutions using **Azure DevOps, Azure App Service, Azure Functions, Azure Storage, Azure Service Bus, and Azure Key Vault.**
- Performed unit and integration testing to ensure system reliability.
- Assisted junior developers and guided best practices.
- Managed tasks and workflows using **Azure DevOps.**

Tech Stack: C#, ASP.NET Core Web API, React, JSON, SQL Server 2022, Azure DevOps, Azure App Service, Azure Functions, Azure Storage, Azure Service Bus, Azure Key Vault

Project: BEO-Parcel Web Service (Feb 2017 – Present)

Enterprise web service for **rate calculation, order creation, billing, invoicing, and shipment tracking** integrated with carriers like **DHL, UPS, and FedEx.**

Responsibilities:

- Analysed requirements and collaborated with **Germany-based stakeholders**
- Developed and maintained **RESTful Web APIs**
- Implemented **OWIN authentication and authorization**
- Performed **bug fixing, unit testing, integration testing**
- Supported production issues and critical fixes
- Conducted **peer code reviews** and mentored junior developers
- Tracked and resolved issues using **Azure DevOps and Redmine**

Tech Stack: C#, ASP.NET Web API, Entity Framework, LINQ, JSON, SQL Server 2014

Project: BEO-Parcel Web (Feb 2017 – Present)

Web application consuming BEO-Parcel services for logistics operations.

Responsibilities:

- Developed **role-based user management modules**
- Fixed UI and backend defects
- Performed testing and code reviews
- Provided day-to-day development support to team members

Tech Stack: C#, ASP.NET MVC, Entity Framework, LINQ, HTML, CSS, JavaScript, jQuery, SQL Server 2014

Project: BEO-Rentlite (Feb 2023 – Present)

Rental management system for owners and customers.

Responsibilities:

- Implemented **role-based access control**

- Fixed production bugs and enhancement issues
 - Monitored tasks using **Azure DevOps Server**
 - Performed unit and integration testing
 - Assisted junior developers in resolving technical issues
- Tech Stack:** C#, ASP.NET Core MVC, Blazor, JSON, SQL Server 2017

Project: PHR – Personal Health Record (May 2013 – Feb 2017)

Web-based healthcare record management system.

Responsibilities:

- Developed admin and client web interfaces
 - Designed UI using HTML, CSS, and JavaScript
 - Performed testing, bug fixing, and user support
- Tech Stack:** PHP, HTML, JavaScript, SQL, jQuery, SVN

EDUCATION

M.Sc. Computer Science

Annamalai University, Tamil Nadu

ADDITIONAL INFORMATION

- Strong experience in **application support and maintenance**
- Comfortable working as **individual contributor or team mentor**
